SELECTSPACE PARTITIONS

Super easy to install! The only components that need assembly are the regular stands, all the other components come ready-to-use right out of the box. The panels and stands connect quickly and easily with spring push-buttons. Temporary or permanent, all the SelectSpace stand bases come with bolt hole knock-outs that can be removed and used to bolt the partitions into the ground. If you want your system to be easily removable, simply leave the knock-outs in place.

Panels are fabricated from heavy gauge perforated aluminum. Posts are heavy gauge aluminum and stainless steel bases, with leveling legs for uneven ground.

All components are powder coated and rust proofed.
